

Description of fixed bugs, improvements etc. :

Some of these bugs may occur only under certain operating systems, databases, browsers or other specific cases.

ImagingWorker <i>Wrong error handling in PdfXChange with specific (damaged) PDFs</i>	267182
System Infrastructure <i>Special Symbol "EM Dash" is filtered in Fulltext Search</i>	267552
Retrieval <i>Duplicate key exception "IIS_WasUriRewritten"</i>	267928
Retrieval <i>Retrieving select list of DocuWare Fulltext field leads to 500 - Internal Server Error</i>	268020
WF Tasklist <i>Clip via "Drag and Drop" does not work in tasks anymore</i>	268088
Workflow <i>Multi-Select user Lists do not assign properly for 7.1 Workflow Tasks</i>	268115
Retrieval <i>Faster Switching between file cabinet and basket renders view invisible</i>	268407
Organization <i>Option "Windows login" disappears from dropdown field on login page after failed login attempt (wrong password/username)</i>	268497
Data Capture <i>Unable to use one click indexing on amount field due to "\$"</i>	269018
Workflow <i>LDC errors out if global variables of Workflow contain blanks/special characters</i>	269195
DynaPDF <i>Font issues with certain PDFs caused by DynaPDF bug</i>	269207
Workflow <i>Issue with table field in workflow task - option "Select list only" converts field to mandatory field</i>	269303
Data Capture <i>Cannot assign a Forms signature field to more than one Merge form field</i>	269563
Retrieval <i>Document history does not show all entries / hides entries on scrolling</i>	269597
Windows Explorer Client <i>Attach from Outlook using WEC and document in tray does not work</i>	269660
ImagingToolkit <i>A jpg file cannot be displayed in Viewer with Internet Explorer</i>	269708
Workflow <i>Workflow Task with an "Assign To" step over a Multi select deletes the first user which is chosen.</i>	269731
Retrieval <i>Predefined entries for database fields overwrite existing values on document access</i>	269780
Background Process Service <i>Autoindex - Locked documents count towards an AllDocumentsFailedException</i>	269844
Retrieval	269916

<i>\$\$ is added to the end of predefined values for search dialogs after 7.1 update</i>	
Data Capture <i>Form titles do not get values.</i>	270198
Retrieval <i>Using Wildcard search on value containing ' will return on results</i>	270243
Retrieval <i>Wrong order of Select List in date fields of Search dialog</i>	270509
Import <i>DWControl: Limit on the size (pages) that can be imported into DocuWare using a DWCONTROL file?</i>	270578
Automation and Integration <i>Attachment corrupted when attaching document from WEC when attached to a newly created email</i>	270580
Quality Assurance <i>Major version isn't increased automatically when using Platform .NET API</i>	270708
Workflow <i>Documents from Tasks are not automatically shown at the Viewer</i>	270750
Workflow <i>Workflow Designer freezes while selecting table</i>	270805
Retrieval <i>Automatic logout in case of inactivity does not work in 7.1</i>	271050
Data Capture <i>Document tray with Intelligent Indexing shows no contents when too many documents with large index fields are loaded</i>	271113
Automation and Integration <i>DWRequest search with operator AND and OR does not work</i>	271319
Retrieval <i>List does not include a document when an index field in the list's filter contains an apostrophe</i>	271330
Workflow <i>Workflow Designer - Error "Missing SOAP action"</i>	271333
Automation and Integration <i>"More Information" on Transfer workflow results in error page</i>	271385
Workflow <i>Date for "Out of office" function will be ignored</i>	271432
Request V2 <i>DocuWare 7.1 breaks all Request configurations created from result lists</i>	271604
Automation and Integration <i>Autoindex configuration needs to be recreated when using new index field</i>	272222
Retrieval <i>Document relations in 7+ versions do not work with old header format</i>	272899
Email Capture <i>Connect to Mail configs getting disabled</i>	273050
Automation and Integration <i>Request Import not working</i>	279045

Document Capture <i>Scan2FTP - Free client license is checked to upload files from FTP storage to document tray</i>	196798
Processing Configurator <i>The option "begins with" to detect a Desktop configuration automatically does not work anymore</i>	237958
Data Capture <i>Forms Fixed Text Box edit dialog wrong action on "del" key</i>	254103
Workflow <i>Select list with one entry displays additional blank line</i>	254274
Data Capture <i>Forms can't search for users with an umlaut in a selcclist</i>	256267
Retrieval <i>File cabinet administration permission does not work as expected</i>	258349
Email Capture <i>Message "Service not available" Outlook storage dialog</i>	267778
Automation and Integration <i>Wrong displayed error message in an Autoindex configuration log</i>	268321
Data Capture <i>Fieldmask did not work correctly in Forms</i>	268839
Automation and Integration <i>Wrong date format when importing email with Connect to Outlook</i>	269598
Data Capture <i>Smart Index shortcut does nothing</i>	269627
Processing Configurator <i>New import configurations store with the wrong date</i>	270660
Data Capture <i>Smart Index shortcut does not work</i>	272756
Document Capture <i>Not possible to upload files with umlauts (ä,ö,ü) into the FTP path</i>	273707
Retrieval <i>Sorting in folder structure does not work for more than 100 documents</i>	253606
Request V2 <i>Changed field names are not shown in DocuWare Request</i>	253777
Windows Explorer Client <i>Moving files in Windows Explorer Client results in error when no modify permission on indexfield of highest folder level is assigned</i>	253850
Windows Explorer Client <i>Version number and the 'Last edited date' changes in Windows Explorer Client</i>	254007
Windows Explorer Client <i>When disabling Quickaccess the Windows Explorer Client crashes explorer.exe</i>	256022
Workflow <i>Stopping an instance in Workflow Designer creates a different entry in workflow history than stopping it in Web Client</i>	256405

Background Process Service <i>Database columns wrongly recognized as SQL keywords</i>	256461
Organization <i>File connections cannot be edited (or new ones created), when trusted Windows authentication login and https is used</i>	258241
DynaPDF <i>DocuWare PDF Text shot issue with check boxes</i>	258569
Retrieval <i>"Export as DocuWare Request" creates erroneous Request configurations</i>	259074
Retrieval <i>Documents from Index Value Profile with CURRENTUSERLONGNAME() cannot be clipped</i>	260158
Retrieval <i>In Task List configuration an error occurs: Wrong Condition. Not parsed string '>90000000000' for field 'GFCPO'</i>	261377
Viewer <i>Uppercase PDF extensions do not show the correct icon in the Viewer</i>	262896
Automation and Integration <i>Date is shown wrong, if the last number of the day is 1 or 2</i>	263251
Document Capture <i>After FTP crash and restart of FTP service, no documents are processed in FTP folder</i>	264025
Retrieval <i>Right GeneralVersioning is not sufficient to view version history</i>	264613
Workflow <i>Task area freezes after last filtered task has been confirmed</i>	264825
Automation and Integration <i>2nd index field of source file cabinet not shown in matchcode dropdown on new Autoindex configurations</i>	264851
Retrieval <i>Platform API - GetFromDocumentsForDocumentsQueryResultAsync runs into error after upgrade to DW 7.1</i>	265138
WF Engine <i>Cast error when using Local Data Connector in DocuWare 7.1 with numeric fields</i>	265159
Automation and Integration <i>Timezone for Autoindex Workflows is utc+0:00 always</i>	265197
Annotations <i>Arrow annotations get deplaced when resized/moved in chrome</i>	265336
Retrieval <i>Mobile Apps menu is missing from web-client if they don't have TaskList license</i>	265467
Data Capture <i>Imbedded link of a document in a form is changed after opening and document is not displayed</i>	265705
Workflow <i>Workflow decision with stamp does not log index value changes in _AUD table</i>	266057
Organization <i>"Read" standard profile assigned to user after editing in upgraded DW7.1 system without notification</i>	266313

Data Capture <i>Select Lists using "large" tables as external source loads extremely slow</i>	266945
Email Capture <i>Connect 2 Outlook needs certificate to start</i>	230376
Solutions <i>Migration of FortisBlue 6.12 SP1 to DocuWare 7 - Versioned documents do not migrate</i>	233686
DynaPDF <i>PDF is not displayed correctly</i>	240131
WF Engine <i>Cannot get variable "last error message" to display into a email via Workflow</i>	241259
Stamps <i>Time stamp displayed in UTC time when emailing from DocuWare Web Client</i>	244509
Organization <i>WorkFlow Assign Data error if no working days configured</i>	246461
Data Capture <i>Select list does not show all expected entries</i>	246932
Retrieval <i>Saved search does not always display same results as the original search when having a predefined value which is hidden in search dialog</i>	249901
Automation and Integration <i>Autoindex doesn't trigger Workflows</i>	250716
Windows Explorer Client <i>Wrong error message when deleting in Windows Explorer Client</i>	252909
Retrieval <i>Specific characters are allowed in database columns but not shown in Web Client</i>	252930
Retrieval <i>Unable to sort by page count</i>	152862
Retrieval <i>Files which are stored as "Reference Only" can't be displayed in the Web Client</i>	158212
Email Capture <i>It is not possible for Connect 2 Outlook to save embedded pictures from a email if they have a .jpg format</i>	267173
