

| | |
|--|---|
| Name of ZIP-File: | DW6.5_Hot33.7z |
| Date of ZIP-File (dd.mm.yyyy): | 16.06.2014 |
| Internal reference: | 843807, 84659, 84694, 85670 |
| To be used only with DocuWare version: | DocuWare 6.5 |
| Language version: | neutral - can be used for all language versions |

| | |
|--|-----------------------------------|
| This Hotfix contains other Hotfixes : | DW6.5_Hotfix02, 09, 24, 32 |
|--|-----------------------------------|

Please notice:

- i) The HotFix includes one or more files which have to be copied manually into the appropriate folder of the DocuWare installation (see below). Replace only the existing files with the same name with the files which were coming with this HotFix.
- ii) It is required NOT to rename the original files. This may lead to unexpected system behaviour. If you like to keep the original files then move them to a different location (create an own folder).
- iii) In case of language dependent files please use only the files matching to your DocuWare language.
- iv) In case the HotFix concerns the Web Client Server we advise to empty the browser cache.
- v) In case the HotFix concerns the Web Instance then this HotFix must be copied additionally into every new created Web Instance in future.

| Installation path of the HotFix files: | | Server | Client | Installation folder: |
|--|-------------------|--------|--------|--|
| File: | Version: | | | |
| DocuWare.Desktop.msi | 16.06.2014 | X | | <DocuWare>\Web\ClientSetupData\Hotfixes \ Desktop |
| Desktop.Hotfix.xml | 16.06.2014 | X | | |
| DocuWare.Desktop.Scanner.msi | 16.06.2014 | X | | <DocuWare>\Web\ClientSetupData\Hotfixes \ DesktopScanner |
| DesktopScanner.Hotfix.xml | 16.06.2014 | X | | |
| DocuWare.Desktop.SmartConnect.msi | 16.06.2014 | X | | <DocuWare>\Web\ClientSetupData\Hotfixes \ DesktopSmartConnect |
| DesktopSmartConnect.Hotfix.xml | 16.06.2014 | X | | |
| ClientSetup.exe | 6.5.2152 .5648 | X | | <DocuWare>\Web\Platform\ClientSetup |

Description of fixed bugs, improvements etc.:**DocuWare Clients / DocuWare Desktop:**

- Form letterhead printing with wrong orientation in DocuWare Printer
- Small DataMatrix barcodes are not recognized
- DocuWare Desktop version 6.5 is not downwards-compatible
- Import - just first side of multipage PDF's indexed

Installation instruction:

- Copy the Hotfix 7z file into the folder <DocuWare>\Web\ClientSetupData\Hotfixes\
- Expand the 7z file into this folder. In case the files exist in the following folders then replace the files.
- Subfolders "Desktop", "DesktopScanner", "DesktopSmartConnect" are created, each contains 2 files (msi+xml)
- Move "ClientSetup.exe" into the folder <DocuWare>\Web\Platform\ClientSetup\ by replacing the existing file
- The DocuWare Update will update the DocuWare Desktop of the clients when they are booted.
- For modification of their installation users have to download and execute the Client Setup again.
