

Name of ZIP-File:	<b>DW6.5_Hot47.7z</b>
Date of ZIP-File (dd.mm.yyyy):	17.08.2015
Internal reference:	115168
To be used only with DocuWare version:	<b>DocuWare 6.5</b>
Language version:	<b>neutral</b> - can be used for all language versions

<b>This Hotfix contains other Hotfixes :</b>	<b>DW6.5_Hotfix02, 09, 24, 32, 33, 39, 42</b>
--	---

**Please notice:**

- i) **The HotFix includes one or more files which have to be copied manually into the appropriate folder of the DocuWare installation (see below). Replace only the existing files with the same name with the files which were coming with this HotFix.**
- ii) **It is required NOT to rename the original files. This may lead to unexpected system behaviour. If you like to keep the original files then move them to a different location (create an own folder).**
- iii) **In case of language dependent files please use only the files matching to your DocuWare language.**
- iv) **In case the HotFix concerns the Web Client Server we advise to empty the browser cache.**
- v) **In case the HotFix concerns the Web Instance then this HotFix must be copied additionally into every new created Web Instance in future.**

Installation path of the HotFix files:		Server	Client	Installation folder:
File:	Version:			
DocuWare.Desktop.msi	10.08.2015	X		<DocuWare>\Web\ClientSetupData\Hotfixes \ Desktop
Desktop.Hotfix.xml	10.08.2015	X		
DocuWare.Desktop.Scanner.msi	27.07.2015	X		<DocuWare>\Web\ClientSetupData\Hotfixes \ DesktopScanner
DesktopScanner.Hotfix.xml	10.08.2015	X		
DocuWare.Desktop.SmartConnect.msi	27.07.2015	X		<DocuWare>\Web\ClientSetupData\Hotfixes \ DesktopSmartConnect
DesktopSmartConnect.Hotfix.xml	10.08.2015	X		
ClientSetup.exe	6.5.2178.5648	X		<DocuWare>\Web\Platform\ClientSetup
DocuWare.Jobs.dll	6.5.0.5920	X		<DocuWare>\Job Processor
DocuWare.Printer.Configurator.xap	15.07.2014	X		<DocuWare>\Web\SettingsUI\Content\Plugins\ PrinterConfigurator\ClientBin\
DocuWare.Silverlight.SCConfigurator.xap	29.08.2014	X		<DocuWare>\Web\SettingsUI\Content\Plugins\ SCConfigurator\ClientBin\

**Description of fixed bugs, improvements etc.:****DocuWare Clients / DocuWare Desktop:**

*Desktop SSL certificate needs to be changed for DocuWare Version 6.5*

**Installation instruction: see next page !**

**Installation instruction:**

- **Copy the Hotfix 7z file into the folder** <DocuWare>\Web\ClientSetupData\Hotfixes\
  - **Expand the 7z file into this folder. In case the files exist in the following folders then replace the files.**
  - **Subfolders “Desktop”, “DesktopScanner”, “DesktopSmartConnect” are created, each contains 2 files (msi+xml)**
- **Stop Job Processor Server and move “DocuWare.Jobs.dll” into the folder** <DocuWare>\Job Processor **by replacing the existing file. Start Job Processor Server.**
- **Move “ClientSetup.exe” into the folder** <DocuWare>\Web\Platform\ClientSetup\ **by replacing the existing file**
- **Move “DocuWare.Printer.Configurator.xap” into the folder** <DocuWare>\Web\SettingsUI\Content\Plugins\ PrinterConfigurator\ClientBin\ **by replacing the existing file**
- **Move “DocuWare.Silverlight.SCConfigurator.xap” into the folder** <DocuWare>\Web\SettingsUI\Content\Plugins\SCConfigurator\ClientBin\ **by replacing the existing file**
- **The DocuWare Update will update the DocuWare Desktop of the clients when they are booted, or users have to download and execute the Client Setup manually.**

**Attention:**

**For usage of ZUGFeRD version 1.0 invoices in Printer / Import the configurations must be newly created in case DW6.5\_Hotfix39 or 42 was not applied.**
